## DETAILED ACTION

### *Drawings*

1. Figures 8-9 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Specification*

2. The attempt to incorporate subject matter into this application by reference to US Patent No. 5,816,655 is improper because the specification does not positively state the phrase: "The background is applicants US Patent No. 5,816,655...**which is herein incorporated by reference**". Applicant's implicit attempt to refer to the above reference is improper as the above phrase should be used.

3. The disclosure is objected to because of the following informalities: The applicant's referral to Figure 1 as a "perspective view of lift chair of the type patented in US Patent No. 5,816,655" is improper, as applicant is stating that Figure 1 is prior art. Applicant's referral to Figure 1, should indicate the new improvement of applicant's old invention, as it shows a new armchair with seat lift, having a caster wheel arrangement thereon.

Appropriate correction is required.

Art Unit: 3636

***Claim Rejections - 35 USC § 112***

4. Claims 1-5 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited. Furthermore, applicant may not refer back to an issued patent i.e., US Patent No. 5,816,655 in the body of the claims. Applicant should recite all of the claimed teachings of the prior art reference and then state the "improvement."

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hoegh in view of Wrethander. Hoegh discloses the use of an armchair (10) with seat lift but fails to show the use of a wheel means on the armchair. Wrethander shows the old and well know use in the art of a lift chair (21) having a wheel means (2,3) of the wheel chair type, which includes one fixed (3) and one swivel (2) wheel means. It would have been obvious to one of ordinary skill in the art at

the time of the invention to modify the lift chair of Hoegh with a wheel means, as taught by Wrethander in order to allow for mobile transport of an occupant while in the chair.

### *Conclusion*

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference No 4,046,418 and 5,829,826 show features of the claimed invention.

8. An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed.

Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

Applicant is advised of the availability of the publication "Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office." This publication is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.
